

Addendum No. 2 to RFP 15-02

The following answer to question #1 included in Addendum No. 1 has been modified to read as follows:

General Questions	
Question	Answer
We were one of the first unincorporated, Department of Public Health designated, "Healthy Communities" in San Bernardino County in early 2012. Our nonprofit organization was the driving entity in obtaining that designation for our region, and we have played a key role in the development of our healthy communities project, which has been in existence for nearly 4 years, and we have also supported the community collaborative that implements regional collective impact projects. It was mentioned at the bidders conference that a Chamber of Commerce representing a region could apply, however we feel we are the most appropriate proposer in our region. Are we able to apply?	<u>For unincorporated areas only</u> , First 5 San Bernardino will accept proposals from designated entities so long as they can fully demonstrate designation and provide documented support from the parent municipality, and meet the minimum requirements and other criteria outlined in the RFP and Exhibits. Please note that First 5 strongly affirms that this funding opportunity is intended to strengthen the municipality itself in committing to making their respective community a healthier place to live.

**Addendum No. 2 to RFP 15-02**

The following information is provided for clarity for unincorporated areas of the County interested in this RFP:

**For unincorporated areas only**, First 5 San Bernardino will accept proposals from designated entities so long as they can fully demonstrate designation and provide documented support from the parent municipality, and meet the minimum requirements and other criteria outlined in the RFP and Exhibits. Please note that First 5 strongly affirms that this funding opportunity is intended to strengthen the municipality itself in committing to making their respective community a healthier place to live.
