I. INTRODUCTION

A. Purpose

First 5 San Bernardino, hereafter referred to as the “Commission”, is issuing this Request for Qualifications (RFQ) for a qualified firm or individual hereinafter referred to as “Consultant(s)” to serve as the Consultant to support the creation of a Home Visiting System (HVS) framework specific to San Bernardino County. The Consultant for the development of the framework will support, analyze, coordinate and guide the selected Project Lead and the Commission’s following objectives associated with a HVS:

Objective 1: Assist in conducting San Bernardino County’s environmental scan of communities with concentrations of risk and systems in those communities that support family and child well-being. The environmental scan includes data about families, existing and potential collaborators, partners, and community assets relevant for children and families

Objective 2: Facilitate the development of a HVS Strategic Plan with a framework that will guide implementation of core components and strategies within the system

Objective 3: Ensure appropriate partner engagement, communication and documentation to successfully implement core components of the Strategic Plan

Objective 4: Develop and solidify a Home Visiting System – San Bernardino (HVS-SB) leadership team and workgroup membership

While every family with a young child may benefit from community and social support to help adjust to developmental stages and promote their child’s healthy development, for those with fewest assets, home visiting is a critical service to help families access supports and resources to help their child thrive. The Commission is committed to creating a sustainable, unified system that supports families with the home visiting services they need and maximize available funding to serve more families.

The project period anticipated is from October 29, 2020 - through June 30, 2022. The selected Consultant will enter into a contract approved by the Commission not to exceed $200,000 for the duration of the contract.

B. Proposition 10 and First 5 San Bernardino

The Commission was created by the passage of Proposition 10, the California Children and Families Act. In November 1998, voters passed this statewide ballot initiative to add a 50 cent tobacco tax on cigarette packs and tobacco products. The revenues collected must be directed toward promoting, supporting, and improving the early development of children prenatal through five years of age and to supporting the creation of integrated, comprehensive, and collaborative systems of services to enhance optimal early childhood development.

To facilitate the direction of Proposition 10 funds at the local level, county commissions were established in each of the 58 counties in California. Each Commission is comprised of members appointed by the local county board of supervisors and each commission has independent authority over the administration of Proposition 10 funds in its county.

This Strategic Plan outlines broad goals and specific outcomes to support each goal. All funded projects of the Commission are designed to support the Commission in achieving these goals. A copy of the Strategic Plan can be downloaded from our website at first5sanbernardino.org.

First 5 San Bernardino Vision
All children in San Bernardino County are healthy, safe, nurtured, eager to learn and ready to succeed.

First 5 San Bernardino Mission
Promote, support and enhance the health and early development of children prenatal through age five and their families and communities.

From First 5 San Bernardino Strategic Plan 2020-2023:

Strategic Priority Areas (SPA’s) and Goals:

- Child Health
  Children prenatal through age 5 and their families can access the full spectrum of health and behavior health services reached to enhance their well-being.

- Quality Early Learning
  Children born through age 5 benefit from high quality early childhood care and education, family engagement, and support that prepares all children to reach their optimal potential in school and life.

- Family Supports
  Families and communities are engaged, supported, and strengthened through resources and opportunities that assist them in nurturing, caring, and providing for their children's success and well-being.

Investment Area: Systems Level Efforts- Collaboration, Community Capacity Building, and Workforce

Across the SPAs there are three outcomes that support efficient systems. These include First 5 San Bernardino’s commitment to ensuring that families, providers, and stakeholders collaborate effectively to improve the well-being of the child; that community organizations and groups are equipped to effectively serve children and families (community capacity building); and that the workforce is developed to effectively serve children families.

Additionally, programs and approaches are strength-based, trauma-informed, focused on the importance of relationship-building and aim to be culturally effective across all aspects of SPA work.

Desired Approach:
The Commission desires to approach Home Visiting Services (HVS) in a holistic, comprehensive, and coordinated manner for the purpose of creating a sustainable, unified system that supports families. Through a systems building strategy, the Commission desires
to support and improve San Bernardino County’s ability to draw down and maximize state and local funding to serve more families with the services they need by strengthening coordination of an interconnected local early childhood system.

This “Systems” approach to identify and coordinate services to this population is not only more efficient in terms of the use of public dollars (Proposition 10) but also more efficient for the families accessing and using the services so their needs can be addressed upon engagement with services. Strategies to move this work forward has been discussed with El Sol Neighborhood Educational Center, Tribal Home Visiting Services, Child Care Resource Center (CCRC) and the following San Bernardino County Departments: Transitional Assistance (TAD), Preschool Services (PSD), and Public Health (DPH). Through the duration of this project, there may be additional partners that could contribute and participate in the development of the HVS.

In the event of a termination under this provision, the Commission is entitled to pursue any available legal remedies.

All information submitted in the submission or in response to request for additional information is subject to disclosure under the provisions of the California Public Records Act (California Government Code section 6250, et seq.). Submissions may contain financial or other data that constitutes a trade secret. To protect such data from disclosure, Consultant should specifically identify the pages that contain confidential information by properly marking the applicable pages and inserting the following notice on the front of its response:

NOTICE

The data on pages_______ of this submission, identified by an asterisk (*) or marked along the margin with a vertical line, contains information which are trade secrets. We request that such data be used only for the evaluation of our submission, but understand that disclosure will be limited to the extent that the Commission determines is proper under federal, state, and local law.

The proprietary or confidential data shall be readily separable from the submission in order to facilitate eventual public inspection of the non-confidential portion of the submission.

The Commission assumes no responsibility for disclosure or use of unmarked data for any purpose. In the event disclosure of properly marked data is requested, the Consultant will be advised of the request and may expeditiously submit to the Commission a detailed statement indicating the reasons it has for believing that the information is exempt from disclosure under federal, state and local law. This statement will be used by the Commission in making its determination as to whether or not disclosure is proper under federal, state and local law. The Commission will exercise care in applying this confidentiality standard but will not be held liable for any damage or injury, which may result from any disclosure that may occur.

G. Negotiations

The Commission may require the potential Consultant(s) selected to participate in negotiations, and to submit revisions to budget, technical information, and/or other items from their submission(s) as may result from these negotiations.

H. Local Preference Policy

The County of San Bernardino (County) and the Commission have adopted a preference for vendors whose principal place of business is located within the boundaries of the County. A five percent (5%) preference may be applied to the cost evaluation prior to approval of any purchase or acquisition of services, equipment, goods, or supplies.

For the purposes of the applying the local preference policy (County Policy 11-12), “principal place of business” is defined as the vendor’s main office (or headquarters) or a major regional office. A “major regional office” is defined as a business location apart from the vendor’s main office (or headquarters) which:
1. Has been issued a business license, if required, and has been established and open for a minimum of six months prior to the date that the approval authority authorizes the circulation of the procurement to which the vendor responds; and

2. Can demonstrate ongoing business activity in the field of endeavor on which the vendor is proposing, from that office during the preceding six (6) months; and

3. Has a minimum of 25% of the vendor’s fulltime management employees and 25% of its fulltime regular employees working from the San Bernardino County location(s).

The Commission’s Local Preference Policy means, for example, if two (2) or more Vendors respond to this procurement with qualifications that are equal in quality, service, and ability to meet the Commission’s needs, Commission staff must identify if any of the Vendors are local vendors. If any of the Vendors are local vendors, and their quoted price is within five percent (5%) of the cost of services, equipment, goods, and/or supplies proposed by other Vendors, unless it is determined that an exemption applies, staff may recommend the local vendor for Contract award.

If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the Contractor agrees to amend, supplement or endorse the existing coverage to do so.
