Operation Splash

F5SB's Signature Water Safety and Drowning Prevention Event scheduled for Friday, June 3. See page 2 of Executive Director Report for more details.

Special Guest

Tammi Graham, First 5 Riverside Executive Director is attending today's Commission Meeting. F5SB and First 5 Riverside have made a commitment to working together in a regional approach, especially on such issues as Early Education (including Child Care and QRIS) as well as Oral Health initiatives, Help Me Grow and other child health issues.

Town Hall

F5SB has been invited to participate in an exciting partnership opportunity as the State Commission works to bolster First 5's role in engaging state and local policymakers to drive policy change for young children.

F5SB is one of the Commissions recruited to hold a F5 State of the Children Town Hall forum this fall. The State will support our Commission and this event with policy and planning resources, technical assistance, and one-time funding support up to \$8,000 for the costs of event planning, outreach, and execution.

Valuable partners who also work tirelessly to support young children such as Children's Fund, Preschool Services and Child Care Resource Center will be asked to participate. Ms. Scott will meet with the Commission for their input, perspective and guidance to the successful outcomes for this community convening.

Audit Requirements

F5SB has received official notification from the State Controller's Office that the Annual Audit for the Fiscal Year ending June 30, 2015 has "passed the muster" meeting all reporting requirements contained in the Standards and Procedures for Audits of Local First 5 Commissions.

Early Education

Due to the implementation of State legislative changes such as Local Control Funding Formulas, F5SB declining revenue and the inability to sustain funding the project, in March 2016, the Commission authorized non-renewal of the Investing in Children Early Education contracts that carried an annual investment of \$5 million. Although it was sad to end this funding focus after so many years investing in preschool activities, F5SB is proud to share and congratulate the affected school districts as all of them

have demonstrated a sound commitment to early education and their students by continuing to fund the preschool slots.

These partners have strategized a variety of methods to continue to support early education from use of Local Control Accountability Plan (LCAP) funds to tapping into district general funds. Congratulations for this outstanding success to the following unified school districts:

- Barstow
- Fontana
- Hesperia
- Lucerne Valley
- Rialto Unified School District
- San Bernardino City

They have shown what is truly possible through collaboration and collective impact.

"Books Across America"

Included in this month's ED report is an infographic on page 4 about why reading with a child is crucial to his or her education and development and fostering a love of reading.

On May 25, "The Dr. Oz Show" announced their support of "Books Across America" in a segment where Dr. Oz discussed current research in brain science which indicates that more than 80 percent of a child's brain growth is completed by age three – making those first three years of life critical for mental stimulation through talking, reading, and singing, which helps billions of neurons inside the brain make strong connections that last a lifetime.

Books Across America is an effort to "give more children access to books and a chance at a brighter future where too many children in our country lack this basic resource" said Dr. Oz.

Through a partnership with UPS, the National WIC Association, Scholastic and First 5 California, Books Across America became a nationwide book drive and week-long campaign, from May 25 to May 31, to get books into the hands of children across the country, ages 0 to 5.

George Halvorsen, Commission Chair for First 5 California, was Dr. Oz's special guest on May 25th as the Books Across America campaign was inspired by First 5 California's Talk. Read. Sing.® public service media campaign, which encourages parents and caregivers to verbally interact with children from birth which research shows aids in brain development.

Commissioner Halvorsen stated, "The benefits to children of the simple acts of talking, reading, and singing beginning in infancy can be life long, These every day, simple moments between children and their parents and caregivers can help develop and strengthen the brain to create healthy, strong minds and futures."

Scholastic, the world's largest publisher and distributor of children's books, educational, and entertaining children's media, kicked off the program by donating 1,000 new books to the campaign.

Participating UPS Store locations nationwide collected book donations from individuals who dropped them off and will forward these donations to local WIC clinic

locations, who will distribute the books to families participating in their Special Supplemental Nutrition Assistance Programs.

Check out media response at #BooksAcrossAmerica! A great cause to get books in the hands of families with young children.

Tobacco Bills

Executive Director Scott recommends the Commission hold a special session in August or September to discuss the effects of recent Tobacco Tax bills on F5SB's revenue and strategize for responses from budgeting to advocacy and policy direction.

Federal Bill - On May 5, the Food and Drug Administration (FDA) extended federal regulatory authority to e-cigarettes, banning their sale to anyone under 18 and requiring that adults under the age of 26 show ID to buy them. In addition, producers will be subject to new federal regulation, requiring them to register with the FDA and provide a detailed account of their products' ingredients and their manufacturing processes. Producers (including vape shops that mix e-cigarette liquids) will also have to apply to the FDA for permission to sell their products. The rules also include limitations on marketing of all e-cigarettes launched since 2007, making up the vast majority of the market.

These new rules take effect in August. There is no anticipated impact on F5 revenue.

State of California – On May 4, Governor Brown signed five of six special session anti-tobacco bills, the most significant new tobacco regulations in decades. The bills tighten restrictions on e-cigarettes, raise the smoking age to 21 and implement an annual BOE licensing fee.

(BOE) - Because of the negative effects experienced on Prop 10 revenue, F5's have explored the methods that the BOE used to calculate reimbursement for expenses incurred in the administration and collection of the tobacco taxes. The rising costs from the BOE significantly impact the Prop 10 revenue and our ability to provide services. These costs have risen 600% in the past 10 years, while tobacco tax receipts have decreased by nearly 30%. For fiscal year 2014-2015, these costs were projected to be just shy of \$18M, up from \$2M in 2002-2003.

Stemming from a State Audit report of the BOE's Compliance Fund, the Assembly and Senate budget Committees agreed that the BOE will create a one-time reserve allocation, returning \$4.8M in reserve funds held in the Cigarette and Tax Tobacco Compliance Fund, to the special funds, including Prop 10. The portion of this that goes to Prop 10 is just short of \$3M and will be part of the 2016/17 State Budget.

The impact for F5SB is about \$183,000 in increased revenue.

Another BOE related legislation is the adoption of an Annual BOE Licensing Fee. This revises the Cigarette and Tobacco Products Licensing Act to establish an annual BOE licensing fee of \$265, replacing the former one-time fee. This becomes effective on June 9th.

Regarding the Potential First 5 Impact:

The LAO estimates that the new fees will raise \$12M and will ensure there is enough money to cover the cost of the licensing program without charging the special funds. Last year, \$3.9M was pulled from Prop 10 to cover a share of the licensing fee costs. The impact for F5SB is about \$225,000 in increased revenue.

Increase in Smoking Age from 18-21 - The intent of the bill is to reduce the number of young people who start smoking. 10% of Prop 10 funds generated are based on tobacco consumption by 18 – 20 year olds or younger. This bill becomes effective June 9th. The BOE projects reduced tobacco excise tax revenues of about \$43M per year. Based on the current allocations, the Prop 10 share would total approximately \$24.7 million. F5SB will feel the impact immediately and are looking at a decline in revenue of about \$1.2M for Fiscal Year 2016-2017. These are very rough estimates but offset the decline with the increases just shared and the loss in revenue is about \$800,000 for F5SB.

The bill classifying e-cigarettes as a tobacco product and therefore subject to the same state restrictions as existing tobacco products does not affect F5’s as it did not change the definition of “tobacco product” in the Revenue and Taxation Code to include electronic cigarettes. Therefore, this bill does not extend the State’s existing tax on those products to e-cigarettes.

The Ballot Measure, proposing a \$2 per pack Tobacco Tax Increase has reportedly received the number of signatures required to be on the November ballot. This would apply, for the first time, the tobacco products excise tax to e-cigarettes.

This proposal does include requirements to backfill – in other words, any increase in tobacco taxes would result in a decline in sales and decline in tax revenues for the special funds, including Prop 9, Prop 10 the General Fund and the Breast Cancer Fund. The new measure provides for the backfill of these losses. The LAO estimates that the amount of total backfill needed to comply with this requirement would range from \$200-230M in 2017-2018.

The classification of certain e-cigarettes as tobacco products would generate additional revenue for Prop 99 and Prop 10. The LAO’s very rough estimate is that excise taxes on e-cigarettes could generate between \$10-\$40 million for Prop 10 in 2017-2018.

Changes to the Agenda

Ann Calkins, Executive Assistant, announced the following change to the agenda:
 *In Agenda Item 6, the correct dollar amount should be \$17,979. The posted agenda shows \$17,797.”

Ms. Dickerson-Sims stated she will poll other First 5 Commissions to review what their policy look like to determine a starting point. Commissioner Gonzales advised that input from Counsel would be appropriate, as well, in order to safeguard our actions.</p> <p>Commissioner Iverson stated it is important to note that for the first time in the history of First 5 San Bernardino the Commission has applied for and been granted additional funds outside of Prop 10 dollars. Commissioner Iverson also noted that in spite of the Commission's approval of an admin policy of 15 percent, it is commendable that admin costs for Fiscal Year 2016-2017 is 9.1 percent. The evolution of First 5 to a systems-level of involvement is also noteworthy.</p> <p>Commissioner Gonzales commented she is very grateful to staff and expressed admiration in their efforts to make ends meet and staying solvent regardless of what goes on at the State level.</p> <p><u>Public Comment</u> None</p> <p>A motion was made by Commissioner Iverson and seconded by Commissioner Weinstein to approve Item 3. (Presenter: Mary Alvarez, Staff Analyst II, 252-4258)</p> <p><u>Discussion</u> Commissioner Gonzales asked if First 5 partners with local schools. Ms. Alvarez answered that F5SB has an MOU in place with County of San Bernardino Preschool Services Department where AmeriCorps members are allowed to serve at any PSD site depending on need. A requirement for AmeriCorps members is that they serve in their respective community and First 5 tries to accommodate as best as possible.</p> <p>Commissioner Gonzales asked if there are other opportunities to partner with public schools. Ms. Alvarez answered there are no current partnerships, however, there could be in the future. Karen Scott stated it's been difficult, at times, to find AmeriCorps workers who are qualified and willing to participate.</p> <p>Ms. Scott that this is a perfect opportunity to talk about this among First 5's QRIS partners, for example, the universities and Superintendent of Schools. Ms. Alvarez added that First 5 is trying a more strategic approach in recruitment efforts. Leslie Fountain, First 5 Media Specialist, has created eye-catching user-friendly advertising to attract the younger crowd's attention and current AmeriCorps members are</p>

	<p>spreading the word about the opportunity while manning First 5 booths at various events around the County.</p> <p>Ms. Alvarez stated she has been creating relationships with the local community colleges and universities to spread awareness among interested early childhood education students who would appreciate the hands-on experience. In order to build a better awareness/communication among young people regarding AmeriCorps opportunities, Commissioner Gonzales suggested reaching out to the Job Corps organization, high schools and the local community and ask them to communicate this information on their websites. **AGENDA ITEM 2
JULY 6, 2016**

Subject	Social Entrepreneurs, Inc. (SEI)
Recommendations	Approve Amendment A1 to Contract IC025 with Social Entrepreneurs, Inc. (SEI) to increase by \$28,950 not to exceed the total amount of \$184,941 for Fiscal Year 2016-2017 resulting in a cumulative total amount of \$778,949 for Fiscal Year 2014-2017 to support the First 5 Capacity Continuum Project. (Presenter: Mary Jaquish, Supervisor, 252-4254)
Financial Impact	\$184,941 for Fiscal Year 2016-2017
Background Information	<p>On October 27, 2014, the Commission approved a three-year contract with Social Entrepreneurs, Inc. (SEI) to provide capacity continuum services to support the Commission’s goal to further develop strong, adaptive and sustainable organizations that serve the 0-5 population in San Bernardino County.</p> <p>SEI has collaborated with the San Bernardino Capacity Building Consortium since 2011. The Commission has supported the Consortium’s work to strengthen the nonprofit sector from a systems approach. Through a contract with SEI, the Commission has provided facilitation services, data analysis, strategic planning and comprehensive reports to build on the capacity of nonprofits within the County.</p> <p>For Fiscal Year 2015-2016, a portion of SEI’s scope of work was modified to support Consortium member Inland Empire United Way’s (IEUW) ieCapaciteria grants information page. SEI has been instrumental in conducting research on available funding opportunities for San Bernardino County which is housed within ieCapaciteria. This grants page is a valuable resource to the Capacity Building Consortium as well as to nonprofits in San Bernardino County. While IEUW secures additional partnerships to support and sustain the grants page, First 5 San Bernardino staff recommends to continue to support a portion of the annual cost for Fiscal Year 2016-2017 not to exceed \$28,950 in order to continue producing this valuable resource.</p> <p>Pending Commission approval, SEI will continue efforts to create sustained, positive outcomes for First 5 Capacity Building partners and build upon previous capacity building training as well as research, write, edit and post 12 months of monthly grant bulletins for posting on the IEUW ieCapaciteria and the Inland Empire Community Collaborative website.</p> <p>Approval of this amendment supports the First 5 San Bernardino Strategic Plan 2015-2020, Strategic Priority Area (SPA) 2, Goal 2.2 Capacity Building.</p>

**AGENDA ITEM 3

Recommendations	<p>Approve Contracts with the following Quality Rating Improvement System (QRIS) Operational Partners (OP) for the development of the QRIS infrastructure and the implementation of the QRIS Strategic Plan for Fiscal Year 2016-2017:</p> <ul style="list-style-type: none">(a) San Bernardino County Superintendent of Schools, Contract EC030, in the amount of \$247,857 for data entry management, enrollment services, site assessments and ratings for Fiscal Year 2016-2017, and;(b) Child Care Resource Center, Contract EC031, in the amount of \$1,570,359 for coordination of quality improvement services, program evaluation and professional development for Fiscal Year 2016-2017, and;(c) California State University San Bernardino, Contract EC032, in the amount of \$288,749 to enhance higher education opportunities in early care and education and conduct site assessments for Fiscal Year 2016-2017. <p>(Presenter: Chrystina Smith-Rasshan, Staff Analyst II, (252-4267))</p>
Financial Impact	\$2,106,965 for Fiscal Year 2016-2017.
Background Information	<p>The Commission has selected a Quality Rating Improvement System (QRIS) as a strategy to support the organization’s mission and vision for the purpose of promoting, supporting, and improving early development of children from the prenatal stage to five years of age in San Bernardino County. QRIS is a system that; defines quality standards for early care and education programs, measures programs against these standards, offers and connects educators to training and professional development opportunities and helps parents and caregivers find quality programs for their children.</p> <p>With a QRIS, communities have a new tool to increase access to quality early learning experiences for children 0-5. This system supports existing and aspiring early care and education providers by helping them recognize what they can do to best support the development of young children in their care. The framework also serves as a tool to help early learning programs determine their level of quality and identify a plan for improvement to meet higher standards of quality. In addition to helping programs and providers, a QRIS offers parents and caregivers a tool for recognizing quality settings and selecting programs that best fit the needs of their children.</p> <p>At the April 6, 2016 Commission meeting, specifics relating to the planning and operationalization of the San Bernardino QRIS were presented and approval was received to distribute stipends to the following OP’s:</p> <ul style="list-style-type: none">• San Bernardino County Superintendent of Schools• County of San Bernardino Preschool Services Department• Child Care Resource Center• California State University San Bernardino

In accordance with the QRIS Memorandum of Understanding, Ops responsibilities include the following:

- A. Identify a staff member within the agency as the liaison to interact with First 5 staff regarding QRIS activities to ensure engagement as an Operational Partner by their organization to the Consortium.
- B. Identity a staff member to work on Steering Committee efforts as San Bernardino County QRIS Consortium member.
- C. Advocate on behalf of the QRIS Consortium to bring in non-traditional partners to support quality and align the work within the QRIS system to address the needs of the whole child.
- D. Participate in workgroups charged with advancing the goals of the San Bernardino County QRIS Strategic Plan.

Pending Commission approval of the recommended Contracts, QRIS services will be provided by the following:

- **San Bernardino County Superintendent of Schools (SBCSS)** will oversee the data entry management, enrollment, and rating of early care and education sites according to the California QRIS implementation guide.
- **California State University, San Bernardino (CSUSB)** will enhance higher education opportunities for the early care and education workforce and will support the coordination and administration of site assessments in accordance with the California QRIS implementation guide.
- **Child Care Resource Center (CCRC)** will play the lead role of coordinating the quality improvement efforts to effectively move providers through the QRIS system. CCRC will also support the program evaluation of the QRIS system as well as oversee the QRIS marketing and communications efforts.

Approval of this item supports the Commission's Strategic Plan:

SPA 1: Children and Families

Goal: 1.2: Early Learning

Objective: 1.2a Families have access to quality early childhood care and education

SPA 2: Systems and Network

Goal 2.1: Leadership as a Convener and Partner

Adult-Adolescent Parent Inventory (AAPI): An inventory designed to assess the parenting and child rearing attitudes of adult and adolescent parent and pre-parent populations. Based on the known parenting and child rearing behaviors, responses to the inventory provide an index of risk for practicing behaviors known to be attributable to child abuse and neglect.

Affordable Care Act (ACA): Health care reform law enacted in March 2010. Affordable Care Act (ACA) refers to the final amended version of the law.

Ages and Stages Questionnaire (ASQ-3): A developmental screening tool to screen young children to easily identify potential delays as early as possible and determine which children need further assessment or ongoing monitoring. The ASQ:Social Emotional (ASQ-SE) tool measures the social and emotional competence of children.

Assessment: Screening tool used to assess indicators included in the QRIS criteria used to measure the ECE program and assign a rating. Examples of categories of standards include licensing compliance, ratios, health and safety, curriculum, physical environment, teacher/director qualifications and professional development, family involvement, administration and management, diversity, inclusion, Early Learning Standards, child assessment, and accreditation.

The provider observes, provides fluoride varnish and notes the condition of the teeth, surrounding soft tissues, simple jaw relationships and overall oral hygiene.

Dental Treatment: Includes a thorough dental examination with the use of x-rays and proper instruments to diagnose the condition of the teeth and other oral structures. A full scope of treatment may include preventative services, such as cleaning and oral hygiene instruction for parent and/or child, as well as restoration or removal of damaged teeth and proper space maintenance. Complete treatment results in the proper function and comfort of the child's mouth in a developmentally appropriate way. It anticipates the best possible outcome for healthy permanent teeth.

Desired Results Development Profile (DRDP): An observation tool for teachers to record individual progress toward the achievement of four Desired Results for children: Children are personally and socially competent; Children are effective learners; Children show physical and motor competence; Children are safe and healthy.

Characterized by advocacy, communication, resource navigation, quality cost-effective interventions and outcomes, and linking the client with systems.

Full Time Equivalent (FTE): A measurement equal to one staff person employed in a full-time work schedule and which is, for purposes relating to this contract, calculated at 2,080 hours in a year. FTEs provide a common unit of measurement for positions budgeted. The number of FTEs is the cumulative value expressed, using the full-time equivalent measurement as a baseline, as a total percentage of time or as a total percentage of funds related to a particular classification.

Federally Qualified Health Center (FQHC): Entities as defined by the Social Security Act at section 1905(l)(2) which, "(i) is receiving a grant under section 330 of the Public Health Service Act, or (ii)(I) is receiving funding from such a grant under a contract with the recipient of such a grant and (II) meets the requirements to receive a grant under section 330 of the Public Health Service Act, (iii) based on the recommendation of the Health Resources and Services Administration within the Public Health Service, and is determined by the Secretary to meet the requirements for receiving such a grant including requirements of the Secretary that an entity may not be owned, controlled, or operated by another entity; or (iv) was treated by the Secretary, for purposes of Part B of title XVIII, as a comprehensive Federally-funded health center as of January 1, 1990, and includes an outpatient health program or facility operated by a tribe or tribal organization under the Indian Self-Determination Act or

by an urban Indian organization receiving funds under Title V of the Indian Health Care Improvement Act for the provision of primary health services." In considering these definitions, it should be noted that programs meeting the FQHC requirements commonly include the following (but must be certified and meet all requirements stated above): Community Health Centers, Migrant Health Centers, Healthcare for the Homeless Programs, Public Housing Primary Care Programs, Federally Qualified Health Center Look-Alikes, and Tribal Health Centers.

Improve and Maximize Programs so All Children Thrive (IMPACT): Is an innovative approach that forges partnerships between First 5 California and counties to achieve the goal of helping children ages 0 to 5 and their families thrive by increasing the number of high-quality early learning settings, including supporting and engaging families in the early learning process. Supporting more settings to achieve high-quality standards helps ensure more of California's children enter school with the skills, knowledge, and dispositions necessary to be successful. This provides families the information and support they need to promote and optimize their children's development and learning, both inside and outside the home.

Indirect Costs: Costs that have been incurred for the benefit of multiple projects or activities and cannot be readily identified with a particular final cost objective. An organization having several major functions may need to accumulate the indirect costs into separate groupings and then allocate proportionally to the benefiting functions by means of a base which best measures the relative degree of benefit. The indirect cost rate would be used to distribute the proportional amount of indirect costs to the individual projects or activities based on a Board approved cost allocation plan.

Inland Empire Autism Assessment Center of Excellence (AACE): AACE will be designed to provide a comprehensive assessment for all children referred as potentially being diagnosed with Autism Spectrum Disorder ASD. The center will be designed around the child to be child-centric rather than agency-centric.

Nurturing Parenting: Family-centered initiative designed to build nurturing parenting skills as an alternative to abusive and neglectful parenting and child-rearing practices. The long-term goals are to prevent recidivism in families receiving social services, lower the rate of multi-parent teenage pregnancies, reduce the rate of juvenile delinquency and alcohol abuse, and stop the intergenerational cycle of child abuse by teaching positive parenting behaviors.

Nurturing Parenting: Evidence/research based curriculum that is a family-centered and trauma-informed initiative designed parenting and child-rearing practices. The programs feature activities to foster positive parenting skills and self-nurturing, home practice exercises, family nurturing time, and activities to promote positive brain development in children birth to 18 years.

Nurturing Skills Competency Scale (NSCS): A comprehensive criterion referenced measure designed to gather demographic data of the family, as well as knowledge and utilization of Nurturing Parenting Practices. The data generated from the pre-post administration and NSCS allows parents and staff an opportunity to measure changes in family life, knowledge and utilization of Nurturing Parenting practices.

Obesity: Defined as a BMI at or above the 95th percentile for children of the same age and sex within the ages of 2-19 years.

Operational Lead: In San Bernardino County, the QRIS is operated through a partnership of leading organizations. As the QRIS is being developed, this structure will continue to be refined to ensure that the system is effectively operating. The core components of the QRIS are operated by identified organizations known as "Operational Leads" to oversee and carry out their part of the project deliverables.

Outcome: The result, which the Commission seeks (as outlined in the Strategic Plan) and to which all performance targets must contribute to a measurable change.

Overweight: Is defined as a BMI at or above the 85th percentile and lower than the 95th percentile for children of the same age and sex within the ages of 2-19 years.

Parenting Education: Programs that improve knowledge and increase positive parenting skills.

Parent-Peer: Parents assisting other parents by advocating, guiding and providing moral support as they navigate systems and services.

Participant: A recipient of funded services in accordance with the target population, are children, prenatal through age five and/or pregnant women.

Participant Transportation: Budget line item category for costs involved with transporting participants to needed services and/or appointments.

Perinatal Parent Education Program: Programs that address the concerns and needs of a pregnant woman, her infant child, and the woman's support system. These programs address and affect not only healthy birth outcomes but improved child well-being and family stability outcomes as well.

Performance Target: The specific result that a Contractor seeking investment will commit to achieve. It is tangible in the sense that it can be verified and narrow enough to be directly achieved by the Contractor. It almost always represents a measurable change in the participant of a program.

Professional Services/Consultants: Independent contractors hired to perform services not related to providing direct services. Examples include janitorial services, bookkeeping services, speakers, etc.

Program Materials/Supplies: Budget line item category for items directly related to service delivery such as course curriculum, children's books, journals used by participants, child development toys, etc.

Program Work Plan (Scope of Work): A document containing program expectations and deliverables as agreed upon by First 5 San Bernardino and program contractors. The work plan includes information on the individual components of the program in addition to structure including dosage, activities, outcome expectations and verification methods. This document is signed by the contractor leadership and is approved by the First 5 San Bernardino Commission.

Quality Child Care: Licensed child care and early learning programs (including home-based and center-based care) are safe, healthy, nurturing, stimulating, supportive, interactive, culturally appropriate and sensitive to the needs of all children. They promote early education and the development of trusting relationships to support individual children's physical, emotional, social and intellectual development.

Quality Rating Improvement System (QRIS): A QRIS is a systemic approach to assess, improve, and communicate the level of quality in early and school-age care and education programs. QRIS award quality ratings to early and school-age care and education programs that meet a set of defined program standards.

Rating: Method for determining rating steps, i.e. star levels. The process documents that an ECE program has met the standards for a specific level and is assigned a rating. The number of levels included in the QRIS structure are designed with an easily understood symbol indicating ascending quality with stars. Participating early childhood programs develop program improvement plans after they receive a full rating and commit to engaging in an ongoing continuous quality improvement process between rating visits.

Relapse: The process of becoming unable to cope with life in sobriety. The process may lead to renewed alcohol or drug abuse, physical or emotional collapse, or suicide and is marked by predictable and identifiable warning signs that begin long before a return to use or collapse occurs.

Relapse Prevention: Efforts to teach people to recognize and manage warning signs so that they can interrupt the progression to relapse or collapse and return to the process of recovery.

Request for Proposal (RFP): The document used to solicit a solution or solutions from potential Contractors to a specific problem or need.

Researched Based: See evidence-based: Using research as the basis for determining best practices.

Reasonable Rate of Success: Total number of program participants expected to successfully complete the program meeting the outcome targets.

Resource Center: A facility to which children, prenatal through age five, and families access services needed. Two basic program elements must be present at a Resource Center for it to meet the minimal definition: (i) referrals and linkages to critical services and programs, not represented physically at the center, and (ii) case management (see definition for Case Management).

Rural Health Clinic (RHC): Clinics that are certified under section 1861(aa)(2) of the Social Security Act to provide care in underserved areas, and therefore, to receive cost-based Medicare and Medicaid reimbursements.

Satisfaction Survey: Survey designed to measure the participant's overall satisfaction with the services rendered. Satisfaction Surveys address specific aspects of service provision in order to identify problems and opportunities for improvement.

Special Needs: Children having an identified disability, health, or mental health condition(s) that require early interventions, special education services, or other specialized supports.

Staff Development/Training: Budget line item category for expenses associated with staff training, conferences, retreats, classes, and any other staff development activities related to the funded program.

Staff Mileage/Travel: Budget line item category for employee mileage and travel costs (including lodging and food) for travel related to the program, based on the current IRS allowable rate.

Strengthening Families™: A framework for working with children and families. The approach allows for consistency across child- and family-serving systems and acknowledges the interdependent factors affecting families every day. The foundation of this framework is built upon five research-based Protective Factors. When these Protective Factors are present and robust, families are less likely to experience child abuse or neglect and are more equipped to create environments for young children's optimal development.

Subcontractor: Agencies contracted by the primary Contractor to provide direct services for which they will be responsible for achieving the performance targets for the portion of services they are providing. Contractor shall be responsible for the performance of any subcontractor.

Unduplicated Clients: Clients who are counted as receiving service for the first time in a fiscal year.

Uninsured: individuals not covered by health insurance.

Verification: Validates that something represented to happen does in fact take place. The verification tools must be approved by the Commission.

Women, Infants, and Children (WIC): The Special Supplemental Nutrition Program for Women, Infants, and Children - better known as the WIC Program - serves to safeguard the health of low-income pregnant, postpartum, and breastfeeding women, infants, and children up to age 5 who are at nutritional risk by providing nutritious foods to supplement diets, information on healthy eating including breastfeeding promotion and support, and referrals to health care. Is maintained by the Food and Nutrition Service (FNS), a Federal agency of the U.S. Department of Agriculture, responsible for administering the WIC Program at the national and regional levels.

A full scope of treatment may include preventative services, such as cleaning and oral hygiene instruction for parent and/or child, as well as restoration or removal of damaged teeth and proper space maintenance. Complete treatment results in the proper function and comfort of the child's mouth in a developmentally appropriate way. It anticipates the best possible outcome for healthy permanent teeth.

FTEs provide a common unit of measurement for positions budgeted. The number of FTEs is the cumulative value expressed, using the full-time equivalent measurement as a baseline, as a total percentage of time or as a total percentage of funds related to a particular classification.

Federally Qualified Health Center (FQHC): Entities as defined by the Social Security Act at section 1905(l)(2) which, "(i) is receiving a grant under section 330 of the Public Health Service Act, or (ii)(I) is receiving funding from such a grant under a contract with the recipient of such a grant and (II) meets the requirements to receive a grant under section 330 of the Public Health Service Act, (iii) based on the recommendation of the Health Resources and Services Administration within the Public Health Service, and is determined by the Secretary to meet the requirements for receiving such a grant including requirements of the Secretary that an entity may not be owned, controlled, or operated by another entity; or (iv) was treated by the Secretary, for purposes of Part B of title XVIII, as a comprehensive Federally-funded health center as of January 1, 1990, and includes an outpatient health program or facility operated by a tribe or tribal organization under the Indian Self-Determination Act or

Supporting more settings to achieve high-quality standards helps ensure more of California's children enter school with the skills, knowledge, and dispositions necessary to be successful. This provides families the information and support they need to promote and optimize their children's development and learning, both inside and outside the home.

Indirect Costs: Costs that have been incurred for the benefit of multiple projects or activities and cannot be readily identified with a particular final cost objective. An organization having several major functions may need to accumulate the indirect costs into separate groupings and then allocate proportionally to the benefiting functions by means of a base which best measures the relative degree of benefit. The indirect cost rate would be used to distribute the proportional amount of indirect costs to the individual projects or activities based on a Board approved cost allocation plan.

Inland Empire Autism Assessment Center of Excellence (AACE): AACE will be designed to provide a comprehensive assessment for all children referred as potentially being diagnosed with Autism Spectrum Disorder ASD. The center will be designed around the child to be child-centric rather than agency-centric.

Obesity: Defined as a BMI at or above the 95th percentile for children of the same age and sex within the ages of 2-19 years.

Operational Lead: In San Bernardino County, the QRIS is operated through a partnership of leading organizations. As the QRIS is being developed, this structure will continue to be refined to ensure that the system is effectively operating. The core components of the QRIS are operated by identified organizations known as "Operational Leads" to oversee and carry out their part of the project deliverables.

Outcome: The result, which the Commission seeks (as outlined in the Strategic Plan) and to which all performance targets must contribute to a measurable change.

Quality Rating Improvement System (QRIS): A QRIS is a systemic approach to assess, improve, and communicate the level of quality in early and school-age care and education programs. QRIS award quality ratings to early and school-age care and education programs that meet a set of defined program standards.

Rating: Method for determining rating steps, i.e. star levels. The process documents that an ECE program has met the standards for a specific level and is assigned a rating. The number of levels included in the QRIS structure are designed with an easily understood symbol indicating ascending quality with stars. Participating early childhood programs develop program improvement plans after they receive a full rating and commit to engaging in an ongoing continuous quality improvement process between rating visits.

Relapse: The process of becoming unable to cope with life in sobriety. The process may lead to renewed alcohol or drug abuse, physical or emotional collapse, or suicide and is marked by predictable and identifiable warning signs that begin long before a return to use or collapse occurs.

Relapse Prevention: Efforts to teach people to recognize and manage warning signs so that they can interrupt the progression to relapse or collapse and return to the process of recovery.

Request for Proposal (RFP): The document used to solicit a solution or solutions from potential Contractors to a specific problem or need.

Researched Based: See evidence-based: Using research as the basis for determining best practices.

Reasonable Rate of Success: Total number of program participants expected to successfully complete the program meeting the outcome targets.

Resource Center: A facility to which children, prenatal through age five, and families access services needed. Two basic program elements must be present at a Resource Center for it to meet the minimal definition: (i) referrals and linkages to critical services and programs, not represented physically at the center, and (ii) case management (see definition for Case Management).

Rural Health Clinic (RHC): Clinics that are certified under section 1861(aa)(2) of the Social Security Act to provide care in underserved areas, and therefore, to receive cost-based Medicare and Medicaid reimbursements.

Satisfaction Survey: Survey designed to measure the participant's overall satisfaction with the services rendered. Satisfaction Surveys address specific aspects of service provision in order to identify problems and opportunities for improvement.

Special Needs: Children having an identified disability, health, or mental health condition(s) that require early interventions, special education services, or other specialized supports.

Staff Development/Training: Budget line item category for expenses associated with staff training, conferences, retreats, classes, and any other staff development activities related to the funded program.

Staff Mileage/Travel: Budget line item category for employee mileage and travel costs (including lodging and food) for travel related to the program, based on the current IRS allowable rate.

Strengthening Families™: A framework for working with children and families. The approach allows for consistency across child- and family-serving systems and acknowledges the interdependent factors affecting families every day. The foundation of this framework is built upon five research-based Protective Factors. When these Protective Factors are present and robust, families are less likely to experience child abuse or neglect and are more equipped to create environments for young children's optimal development.

Subcontractor: Agencies contracted by the primary Contractor to provide direct services for which they will be responsible for achieving the performance targets for the portion of services they are providing. Contractor shall be responsible for the performance of any subcontractor.

Unduplicated Clients: Clients who are counted as receiving service for the first time in a fiscal year.

Uninsured: individuals not covered by health insurance.

Verification: Validates that something represented to happen does in fact take place. The verification tools must be approved by the Commission.

Women, Infants, and Children (WIC): The Special Supplemental Nutrition Program for Women, Infants, and Children - better known as the WIC Program - serves to safeguard the health of low-income pregnant, postpartum, and breastfeeding women, infants, and children up to age 5 who are at nutritional risk by providing nutritious foods to supplement diets, information on healthy eating including breastfeeding promotion and support, and referrals to health care. Is maintained by the Food and Nutrition Service (FNS), a Federal agency of the U.S. Department of Agriculture, responsible for administering the WIC Program at the national and regional levels.

This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor's indemnification obligation applies to the Commission's "active" as well as "passive" negligence but does not apply to the Commission's "sole negligence" or "willful misconduct" within the meaning of Civil Code Section 2782.
2. Additional Insured – All policies, except for the Workers' Compensation, Errors and Omissions and Professional Liability policies, shall contain endorsements naming the Commission and its officers, employees, agents and volunteers as additional insureds with respect to liabilities arising out of the performance of services hereunder. 10. Insurance Review – Insurance requirements are subject to periodic review by the Commission. The Director of Risk Management or designee is authorized, but not required, to reduce, waive or suspend any insurance requirements whenever Risk Management determines that any of the required insurance is not available, is unreasonably priced, or is not needed to protect the interests of the Commission. In addition, if the Department of Risk Management determines that heretofore unreasonably priced or unavailable types of insurance coverage or coverage limits become reasonably priced or available, the Director of Risk Management or designee is authorized, but not required, to change the above insurance requirements to require additional types of insurance coverage or higher coverage limits, provided that any such change is reasonable in light of past claims against the Commission, inflation, or any other item reasonably related to the Commission’s risk.

Any change requiring additional types of insurance coverage or higher coverage limits must be made by amendment to this Contract. Contractor agrees to execute any such amendment within thirty (30) days of receipt.

Any failure, actual or alleged, on the part of the Commission to monitor or enforce compliance with any of the insurance and indemnification requirements will not be deemed as a waiver of any rights on the part of the Commission.
11. The Contractor agrees to provide insurance set forth in accordance with the requirements herein. If the Contractor uses existing coverage to comply with these requirements and that coverage does not meet the specified requirements, the

Contractor agrees to amend, supplement or endorse the existing coverage to do so. The type(s) of insurance required is determined by the scope of the contract services.
